09:00	Registration & Welcome coffee	
09:15-09:25	Introduction	Jean-Christophe Crébier, CMP
09:25-09:40	2017 statistics & evolution	Kholdoun Torki, CMP
09:40-10:10	Performances of recent outstanding 28FDSOI circuits and systems taped out through the CMP services	Andreia Cathelin, STMicroelectronics
10:10-10:25	STMicroelectronics MPW services	Romain Verly, CMP
10:25-10:50	Adding LETI Non Volatile Memories for new design exploration	Etienne Nowak, CEA-LETI
10:50-11:00	28nm FD-SOI RTL to GDS design flow tutorial, new developments	Alexandre Chagoya, CMP
11:00-11:30	Break discussion	
11:30-11:50	ams MPW services	Kholdoun Torki, CMP
11:50-12:00	MEMS & Photonics MPW services	Azedine Manaa, CMP
12:00-12:15	Building add-on services: partners' showcase	Jean-Clément Brachet, CMP
12:15-12:35	ID-Xplore™: A Disruptive Innovation for Analog IP providers	Ramy Iskander, INTENTO
12:35-12:55	Flip-chip & Advanced packaging	Olivier Guiller, CMP
12:55-13:10	Closing remarks	Jean-Christophe Crébier, CMP
13:10-14:30	Lunch discussion	
14:30	End of CMP users annual meeting	

Annual users' meeting closing

- Late news :

➔ **MIRPHAB** technologies through CMP

- CMP is broker for MidInfraRef Photonics devices Pilot Line

➔ **28nm FDSOI training** (Things2do project)

- Grenoble March (Registration open in CMP website)

➔ **2nd introduction day** to access MPW services

- Montpellier Feb 8th (registration closed) / Next year ?

- Closing remarks :

➔ CMP keeps **answering** its users' community **technology needs**

➔ CMP keeps **developing its services** toward its users' community

➔ **Blind review** about today event, your feedback is appreciated

➔ **Thank you for attending**
