

# Circuits Multi-Projets® From layout to chips

## ICs, Photonics & MEMS Prototyping & Low Volume Production

Multi-Project Wafer (MPW) cycle time:  
from 12 to 36 weeks

### Overview

Since 1981, 592 customers from 70 countries have been served, more than 7700 projects have been prototyped through 1029 runs and 70 different technologies have been interfaced.
